Featured Projects

Gangsta to Grace Movie

- A mockumentary exploring narcissism, loyalty, and the cost of loving people who never planned to honor you back.
- Blending truth, tension, and spiritual reflection, it reveals what happens when ego feels entitled — and grace finally speaks.
- Written and Edited by Valerie Denise Jones

23:56

- A gripping urban crime thriller set in Atlanta — where four minutes before midnight, every choice becomes fatal.
- Explores morality, betrayal, and survival in the final moments before a new day begins.
- A tense, visually layered narrative that blurs the line between justice and vengeance.

Mommy Issues

- This film reframes digital cheating—not as temptation, but as emotional avoidance and a lack of accountability.
- It asks a necessary question: when do “mommy issues” stop being trauma and start becoming an excuse?
- At its core, Mommy Issues is about women choosing clarity over confusion and recognizing patterns before they become prisons..
